

Year 12

16 October 2020

Dear Parents and Carers

Derby day is approaching for the football supporters in our community and it has been nice to hear some normal conversations that do not revolve around covid. Year 12 have had another good week and are now well settled into established routines. Their first report of the year was published this week and a guide to how to access the information is attached with more details on the school website at this page.

<http://www.liverpoolcollege.org.uk/parents-pupils/frequently-asked-questions>

The data for this report was based on an assessment which took place at the end of September when our intentions were for students to get back into good working habits after such a long time without assessments. There were many positive grades and at this stage one disappointing result should not be viewed as a time to panic or change as it is still very early days.

The students in the year above have been completing their UCAS applications and 23 students have now sent this off with the first two offers already in. It is never too early for our year 12 to be thinking about their options for when they leave school and there is a very good guidance page linked below.

Thank you for your support. Have a lovely weekend.

Nicholas Griffith
Head of Sixth Form
