## Sporting News

The cross country league season reached its conclusion on Tuesday afternoon with another race at Wavertree. There was palpable excitement in the air in both squads. The boys had the chance to cement a superb 2<sup>nd</sup> place finish in the league, which would match our best ever finish in that particular league. Mr Brimage warmed them up thoroughly and then they were off. It was another very solid team performance sprinkled with excellent individual runs from our athletes, resulting in another improved points score.

As the girls warmed up, we reflected on the fact that we were all stood on a precipice - on the very edge of history itself! One more push, one final effort in this league, and provided we ran as we normally do, a first-ever league championship would be ours. The mood was buoyant, and with a quiet, steely confidence, we lined up to start the race. Once again, all of them ran brilliantly, with some really pleasing clumps of runners finishing close together. The improvement I've seen from all of these girls is truly remarkable. A special mention to Seren M who finished the race well despite clearly being in some discomfort - this is the kind of spirit that cross country is all about!

At the time of writing, we await the final results and league standings. We are also now gearing up for the City Championships, which will take place on Monday. There's still work to be done, but this could yet prove to be a truly memorable cross country season - so stand by for a potentially EPIC end of season report in a couple of weeks!

Stay switched on runners - just a few more to go!!

Dear Parents and Carers,

We are excited to continue developing our Forest School sessions, where the children have the opportunity to explore nature, build practical skills, and learn outdoors.

To help support these activities, we are currently looking to expand our collection of garden tools. If you have any spare or unused tools at home that you would be willing to donate, we would be very grateful. Items that would be particularly helpful include:

- Trowels
- Hand forks
- Child-sized gardening tools
- Buckets or watering cans
- Metal spades
- Metal rakes
- Wheelbarrows

All donated tools will be used during supervised Forest School activities to help children develop confidence, teamwork, and a connection with the natural environment.

If you are able to donate any items, please bring them to school and hand them to the office.

Thank you for your continued support of our Forest School programme.

Kind regards,  
Mrs Dutton

## Opal Play

The children love to play in the mud kitchen and we are planning on making instruments out of kitchen equipment. We would appreciate any donations of pots, pans, wooden/metal spoons etc.

We are looking for toy car donations for our OPAL play lunchtimes. If you have any toy cars that you are able to donate to school, please send them in with your child to give to Mrs Williams (Y1) or Mrs Fisher (Reception).

We want to say a huge well done to Amy and Dylan in year 6, who have entered the National Summer Artists Competition! We wish them the best of luck!

# Head lice - Treating head lice

**Head lice can be difficult to treat due to the time-consuming and precise nature of treatment and high re-infestation rate.**

In the past, traditional insecticides were used to treat head lice infestations but head lice would often develop resistance to them.

Therefore, these types of treatments have virtually been replaced with silicone and oil-based preparations which have a physical rather than a chemical action on lice.

After a head lice infestation has been confirmed you can treat the lice at home by wet combing the hair with a head lice comb or by using a lotion or spray that's designed to kill head lice (see below).

However, neither will protect against re-infestation if head-to-head contact is made with someone with head lice during the treatment period.

## Wet combing

The wet combing method involves removing the head lice by systematically combing the hair using a special fine-toothed comb.

The comb's teeth should be spaced 0.2-0.3mm apart. Lice can be crushed or trapped between the teeth of nit combs with a tooth spacing of less than 0.19mm and remain unseen.

You can buy a fine-toothed comb from your local pharmacy or you can order one online.

Lotions or sprays don't need to be used for wet combing. However, to be effective, wet combing needs to be carried out regularly and thoroughly. The method you should use is described below.

- Wash the hair using ordinary shampoo and apply plenty of conditioner, before using a wide-toothed comb to straighten and untangle the hair.
- Once the comb moves freely through the hair without dragging, switch to the louse detection comb. Make sure the teeth of the comb slot into the hair at the roots, with the bevel-edge of the teeth lightly touching the scalp.
- Draw the comb down to the ends of the hair with every stroke, and check the comb for lice.
- Remove lice by wiping or rinsing the comb.
- Work methodically through the hair, section by section, so that the whole head is combed through.
- Rinse out conditioner and repeat the combing procedure.
- Repeat the procedure on days three, six, nine, 12 and 15, so that you clear young lice as they hatch, before they have time to reach maturity.

How long it will take to comb your child's hair will depend on the type of hair they have and its length. For example, short, straight hair can be quickly prepared and can be fine-toothed combed in a few minutes. Longer, curlier hair will take longer to comb.

## **Lotion or sprays**

Using a lotion or spray is an alternative method of treating head lice. However, to be effective they need to be used correctly. Your pharmacist will be able to recommend an over-the-counter lotion or spray and advise you about how to use it correctly.

A lotion or spray should only be used if a living (moving) head louse is found. Crème rinses and shampoos aren't thought to be effective and therefore aren't recommended.

Ensure you have enough lotion or spray to treat everyone in your family who's affected. Use enough to coat the scalp and the length of the hair during each application.

Follow the instructions that come with the lotion or spray when applying it. Depending on the product you're using, the length of time it will need to be left on the head may vary from 10 minutes to eight hours.

The normal advice is to treat the hair and repeat the treatment after seven days. Some products also supply a comb for removing dead lice and eggs.

Some products may be capable of killing eggs as well as lice, although there's no certainty of this. Check for baby lice hatching from eggs three to five days after using a product and again 10-12 days afterwards.

At least two applications of lotion are needed to kill lice over the hatching period because the lotions don't always kill louse eggs.

If the lice appear unaffected by the product, or if the problem persists, seek advice from your school nurse, health visitor, pharmacist or GP.

## **Cautions**

Always read the instructions on the pack or leaflet that comes with a head lice treatment, particularly in relation to the following groups:

- young babies (under six months old)
- pregnant women
- people with asthma or allergies

If you're still unsure, seek advice from a healthcare professional before using the product.

Dear Parent/Carer,

**Re: National Autistic Society - EarlyBird Plus Programme**

We would like to invite you to attend an information\_meeting to discuss the EarlyBird Plus programme which we will be running from .....

The EarlyBird Plus programme is a course which brings families/carers and professionals together to learn about Autistic Spectrum Disorder and has been developed by the National Autistic Society.

The course is 6 classroom sessions 9.30am till 12 noon (for parents/carers & professional) and one home visit (parent/carers only).

The criteria for attending EarlyBird Plus programme is aimed at parents/carers of a child 5 year to 10 years old who have been accepted onto the ASD pathway or have an ASD diagnosis. It has places for parent/carers plus one professional that works with your child.

There are limited places available so could you please contact us on the email as soon as possible to confirm your attendance.

We look forward to meeting you.

Yours sincerely
