

# Chapter 6 Learning Journey

## English

Year 6 pupils will be continuing to revise for their upcoming SATs, with a focus on the areas identified within the mock exams. The children will continue to focus on spelling rules, as well as a focus on exam technique, in particular for their reading paper, considering what each type of question requires of them. We will continue to work through past papers to support with this.

## Mathematics

Year 6 pupils have a busy half term ahead in the build up to SATs. We will focus on areas of development identified from mocks SATs. We start the half term with continued work on ratio and problem-solving involving fractions, decimals and percentages. Year 6 will then spend the later few weeks revising topics covered earlier in the year. We will continue with our Maths Booster groups too as well as going through past papers and looking at exam technique.

## Geography

Geography will be taught again at the end of this half term and next half term.

## History

History will be taught again at the end of this half term and next half term.

Spanish- Las Direcciones This half term, Year 6 pupils will focus on the topic 'Directions.' This topic will include revision of places in the town; prepositions; asking where something is located and giving directions to different places. The grammar focus will be on the imperative verb form and 'estar' the verb 'to be.' The phonic focus will be the 'gi' phoneme.

## Music-

**Jingles** This term pupils will focus on developing their understanding of sequencing. they will explore recording techniques and use the software to record, compose and mix their own advert jingles. This unit supports the transition to upper school music next year.

## Computing

Computing will be taught again at the end of this half term and next half term.

## Science

This half term, we are going to be looking at what variation is. We are then going to progress to looking at adaptations in living things (both animals and plants) and why these come about over time. Fossils will also be studied and questions such as what a fossil can show us about adaptations will be discussed. Finally, we will look at Carl Linnaeus and find out about his work that is still influential today.

## Art/ Design Technology

Year 6 pupils will work on different styles of art of Japanese influence. They will work on block painting and creating their own print stencils and prints as well as looking at manga style drawing and animating. Alongside that they will be learning about different influential Japanese artists and their styles. They will cover different uses of materials and techniques over the course of the half term.

## RE

RE will be taught again at the end of this half term and next half term.

## Physical Education

This half term, the children will be developing their skills in athletics. They will be participating in a variety of events which include sprinting, jumping and throwing activities. They will compete competitively and aim to improve their techniques in order to achieve their personal best. During games lessons, children will be learning rounders and cricket. There will be opportunities for competitive athletic meetings including sports day, as well as rounders and cricket fixtures against other schools.

## LC

This half term in LC+, Year 6 will be doing some much-needed yoga! We will be following a set of online videos, slowly increasing the level of challenge throughout the half term. We will also be working on our 'Presenters' project, which focuses on public speaking, but we will focus on this more so after SATs.

Summer Term 2026
