

Computer Science & ICT Targets Year 8

Target	Link
The quality of the homework needs to be improved as it is below what it should be	Ensure that you read the assessment criteria at the bottom of the homework sheet. This will help you to make sure you don't miss anything out.
Is lacking the basic programming skills so must work on this before they can progress	https://www.codecademy.com/catalog/language/python https://www.learnpython.org/
Is lacking the basic spreadsheet theory knowledge so must work on this before they can progress	Watch videos from this series & have a go yourself: https://www.youtube.com/watch?v=kIVUZEVuDJ8&t=936s
Is lacking the basic Photoshop skills so must work on this before they can progress	Watch videos from this series & have a go yourself: https://www.youtube.com/watch?v=9z3N5Ti9sCo&list=PL6CD20EBB30C2C34I
Needs to engage more fully in the lessons to make the maximum progress	
Work lacks clarity and detail for this course	
Has found programming tricky this year so would find it useful to practice some online coding tutorials at home to boost their skills	https://www.codecademy.com/catalog/language/python https://www.learnpython.org/
Needs to ensure that they are finishing off part complete lesson work at home to ensure good progress is made.	Pupils should be uploading their work to the cloud to allow this to happen (Office365 – OneDrive): www.office.com
