marshmallows!!

A cold January afternoon is easily warmed by an outdoor fire and toasted

We have been lucky enough to have some new equipment this week. We were so excited to have a wood splitter!! As fun as it is to use the axe, the wood splitter is safer and enables the children to be more independent in wood cutting.

It was actually wonderful to watch from a short distance, the Y5 classes coaching each other on how to use it safely and effectively!!

If anyone has any floorboards they want to dispose of, we will happily take them to recycle!

Flint and steel have become somewhat of a competition....Miss MacQueen has quickly become an expert supervisor of this task and encourages children to persevere....it's not an easy task but the satisfaction of lighting that wool is second to none!

Y5 created a water slide in a part of the woods not usually used....mud slides....best ever!!

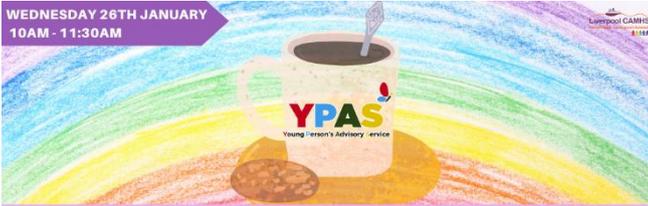

As we introduce more activities, some requiring full supervision....photos take a back seat.

Photo evidence is not always required to prove the fun we've had. I hope that your children come home with stories of the absolute joy of forest school. I am lucky enough to see it first-hand!!

Next week is 4R and nurture group 2
